

Project ACCESS Resource Submission Policy:

1. I understand that submissions are limited to 100MB (if you need to submit something larger, please reach out to our office at projectaccess@missouristate.edu for more information).
2. My submission is original work and is not a copyrighted work wherein I am not the copyright holder or others may have a copyright interest. It is fine if you are the copyright holder and are allowing it to be used by others. You should consider licensing your work under the [Creative Commons Share-alike licensing model](#) which will accomplish this goal.
3. There are no positively identifiable photos, videos, or audio contents that would allow any subject's identity to be determined included in the work (if you have something very compelling and can get releases signed by your subject, please reach out to projectaccess@missouristate.edu and we will investigate this possibility).
4. I agree to allow Project ACCESS or end users to modify/edit the content if necessary to make it usable by educational practitioners in their own use case.
5. I agree to share the resource with Project ACCESS' audience without compensation.
